GROHE PLUS

## GROHE PLUS AN INNOVATIVE, ARCHITECTURAL SILHOUETTE

### **ELEGANT, TACTILE CONTROL**

GROHE Plus is a design that takes its inspiration from the arc, an architectural icon, a shape that offers both strength and lightness. By combining the curve of a circle and the crisp, clean planes of a cube, it presents an exciting, architectural silhouette. It represents strength and stability coupled with features that bring comfort and style to the contemporary bathroom.

### **SLEEK AND STRONG**

Imagine a bathroom that offers not just a sleek, contemporary aesthetic, but also confidence and control grounded in precision engineering. Where geometric angles intersect with soft curves for a perfect balance. It represents the union of beauty and practicality where form complements function in a very special way.

GROHE Plus faucets offer a new level of design excellence, ergonomic comfort and versatility for today's bathroom. From the lustrous surface to the lever handle and smooth motion of the swivel spout, every detail engages the senses and invites interaction, a hallmark of GROHE ingenuity.

# DESIGN OPTIONS FOR EVERY CONCEPT

## THE PERFECT FINISH

Whether your bathroom is a space of timeless elegance or slick minimalist styling, the GROHE Plus is a perfect fit. The Plus range features a broad selection of sizes, with models from single control centreset to wideset faucets and a show-stopping floor-standing bath filler. GROHE Plus faucets are also available in two durable, desirable finishes. Choose between the dazzling GROHE StarLight® Chrome finish or the more architectural Brushed Nickel InfinityFinish™, according to your taste.

### 23 956 EN3

M-Size, lavatory centreset

### 33 170 003

S-Size, lavatory centreset

### 29 307 EN3

Roman tub filler with hand shower

**23 846 003**  
Floor Standing Tub Filler

The crisp lines of GROHE Plus make it an ideal fit with sharp, square ceramics, creating a consistent look throughout the bathroom

## SQUARE OR ROUND? **A MATCH FOR BOTH**

GROHE Plus features elegantly curved details for a softening effect perfectly suited to complementing round basins and adding a tactile note to a design concept

### **VERSATILE, SEAMLESS DESIGN**

The strength of an arc conceals its versatility – as does GROHE Plus. Its distinctive, dynamic design draws on two classic shapes – the square and the circle. Thanks to its use of two surfaces – a circle bisected by a flat face – it works perfectly with both round and square bathroom fittings. Whether your bathroom sensibility is smoothly circular or crisp-edged and cubic, GROHE Plus faucet will sit perfectly with GROHE showers and accessories, making the design process seamless.

**GROHE ECOJOY**

Save precious resources and enjoy 100% water comfort

**90° SWIVEL SPOUT**

Offers versatility unique to a bathroom faucet

**GROHE AQUAGUIDE**

+/-10° Adjustable aerator
