# SMART DESIGN

GROHE Rapido® SmartBox

GROHE SmartControl®

# INTELLIGENTLY DESIGNED INTUITIVELY CONTROLLED

The GROHE Rapido® SmartBox and GROHE SmartControl® together offer a huge number of benefits. At first, it's the slim, streamlined design of GROHE SmartControl that draws your attention. But then you discover all the qualities hidden behind the beautiful exterior and those elegant buttons: the perfect control for an individual shower experience.

We gave the GROHE Rapido SmartBox its name for a reason: it is full of clever innovations and able to adapt to every one of your projects. Combine it with any GROHE SmartControl trim set for a doubly smart solution.

## LESS IS MUCH MORE – ONE TRIM DOES IT ALL

### CONTROL UP TO THREE SHOWER OUTLETS WITH JUST ONE TRIM

Today, people want more than the standard shower head and tub spout. But, in order to have a hand shower and body sprays, you need a diverter or multiple volume control trims and the corresponding rough-in valves. GROHE Rapido® SmartBox and GROHE SmartControl® make it simple. With just one rough-in and one trim, it is possible to enjoy multiple shower options. Featuring up to three GROHE SmartControl volume controls plus thermostat in one trim, GROHE SmartControl means half the work for three times the showering pleasure.

**JUST ONE  
ROUGH-IN  
AND ONE

## THERMOSTAT WITH GROHE TURBOSTAT® TECHNOLOGY

### ALWAYS THE RIGHT TEMPERATURE: FOR ULTIMATE CONVENIENCE AND SAFETY

GROHE TurboStat technology lies at the heart of our Grohtherm® thermostatic valves. The thermoelement's unrivaled sensitivity means it delivers water at the desired temperature within a fraction of a second – and keeps it constant for the duration of the shower.

No more time, water and energy wasted getting the temperature right. And if the cold water supply fails, the thermoelement reacts instantly: the hot water flow will shut off automatically to avoid the risk of scalding.

Grohtherm thermostats come with a 100°F/38°C SafeStop button and can be complemented with an additional limiter at 109°F/42°C. But more than just controlling the temperature, GROHE TurboStat compensates precisely for fluctuations in pressure for a consistently comfortable shower.

**METAL PLATE, ERGONOMIC GRIP**

In keeping with its sleek design, the GROHE SmartControl® uses premium materials. Its ergonomic buttons have a knurled grip for ease of use.

$\frac{3}{8}$ "  
(10mm)

ORIGINAL SIZE  
1:1

$1\frac{5}{8}$ " (43mm)

## SLIM PROFILE CONTEMPORARY DESIGN

### **$1\frac{5}{8}$ " (43 MM) TOTAL DEPTH**

Whatever the installation depth of the rough-in, the total depth of the trim never exceeds  $1\frac{5}{8}$ " (43 mm). The Grohtherm® GROHE SmartControl® trim combines space-saving convenience in the shower and slim good looks.

### **THINNER WALL PLATES**

With a depth of only  $\frac{3}{8}$ " (10 mm), its super slim design makes the GROHE SmartControl wall plate both elegant and compact.

### **HIDDEN SEALING SYSTEM**

The GROHE SmartControl has an integrated sealing system, eliminating the possibility of water seeping in behind the wall.

### **SYMBOLS CAN BE CHANGED**

The control knobs come with a range of different symbols, representing the different shower options. These symbols are clear and recognizable and their functionality distinct. They can be individually configured and also easily changed, if required.

**$1\frac{5}{8}$ " (43MM)  
SLIM DESIGN**

## ROUND OR SQUARE?

GROHE SmartControl® comes in two different forms – round and square. It also comes in three stylish finishes: classic chrome, brushed nickel (available on round models only) and, for a subtle elegant design statement, moon white acrylic glass. Each variant matches existing bath collections perfectly.

### SQUARE DESIGN

RECOMMENDED WITH THE FOLLOWING GROHE BATH LINES

- Allure
- Eurocube®
- Eurocube Joy

### ROUND DESIGN

RECOMMENDED WITH THE FOLLOWING GROHE BATH LINES

- Concetto™
- Essence
- Europlus®
- Eurostyle
- Eurostyle Cosmopolitan
- Eurosmart®
- Eurosmart Cosmopolitan

### Two styles, available in three finishes:

## SWEATING THE SMALL STUFF MADE EASY

### ANGLE ADJUSTABLE UP TO SIX DEGREES

Doing a perfect job comes down to getting even the smallest detail perfect. And once a job is finished, it's usually hard to adjust mistakes. Not with the GROHE wall plates. They can be adjusted up to six degrees – thanks to slotted holes in the control module – to allow for perfect alignment with tiles and tile joints. No redrilling, no risk of damage. Just a job well done.

ANGLE  
ADJUSTABLE

## SIMPLY MORE ADVANTAGES

**One rough-in runs up to three shower/bath filler functions with just one trim**

**Simple plumbing layouts thanks to bottom inlets**

**Wall plates adjustable by six degrees**

**Only 3" (75 mm) minimum installation depth**

**Optional service stops**

Control up to three shower functions all from one trim for a better shower experience

Intuitive operation and perfect control of water volume through GROHE SmartControl®

Concealed technology and elegant super slim design – 1 5/8" (43 mm) – for more space in the shower

## SIMPLER INSTALLATION: AN IN-DEPTH LOOK

### FITS IN EVERY WALL – EVEN THIN ONES

With an installation depth of only 3" (75 mm), the GROHE Rapido® SmartBox fits into every kind of wall, even shallow ones. And it can be installed faster and more easily into brick walls.

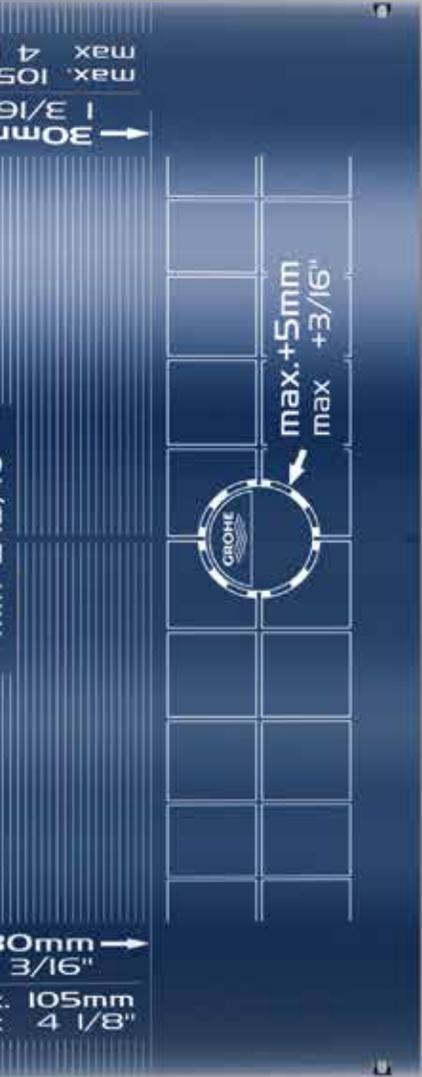

## THE ROUGH-IN THAT'S ALWAYS ON THE JOB

### EASY JOB-SITE MOUNTING – LEAVE THE BENCH VICE AT HOME

GROHE Rapido SmartBox is the smart innovation that enables fast and easy installation of rough-ins. Thanks to brass outlets, which are readily accessible, the rough-in can be mounted using an adjustable wrench or pipe wrench, allowing for efficient, on-site installation.

# THE ROUGH-IN: ALL THE ADVANTAGES TO SIMPLIFY INSTALLATION

**THE MORE YOU KNOW, THE MORE YOU'LL LOVE IT.**

The GROHE Rapido® SmartBox has a multitude of well thought through features. If you take a little time to become acquainted with them, you'll quickly realize how the GROHE Rapido SmartBox will enable you to work more efficiently and effectively.

## EFFICIENCY FROM THE BOTTOM UP

### **BOTTOM INLETS FOR SIMPLE PLUMBING LAYOUTS**

Intelligent design leads to efficient installation. The GROHE Rapido® SmartBox comes with bottom inlets, enabling a direct connection to the hot and cold water supply. That makes 90° fittings a thing of the past. Why take a detour when you can take the direct route?
